

Curriculum Rooms

In Key Stage 1 we are really lucky to offer our super curriculum rooms to the children in Years 1 and 2. Over a two week period, the children visit each of the rooms for 2 sessions to be taught Art, DT, ICT and Cookery by our highly experienced staff. The rooms are also linked to our oracy project which is designed to develop children's speaking and listening skills. Our children love visiting each room and working on the special projects. Here's a little snapshot of some of the things they get up to...

Art

Mrs Cowan runs our fab art room. The children love coming here to explore the wonderful world of art and artists. It's great to see the enthusiasm on the children's faces as they paint their fantastic paintings or mould their super sculptures.

This is where our architects and builders of the future are being created! Mr Smith works with the children on super Design Technology projects in our very own 'construction site.' The children are taught the skills and techniques of the DT curriculum including designing and building castles and creating igloos!

D.T.

Enter the Techno Den and you enter a world of iPads, digital cameras and a whole host of other technological gadgets that Miss Gowland uses to extend the children's computing skills. I think our favourite was using jelly babies to make music using an iPad!

Food, Glorious, Food! Everyone just loves the cookery room. From cakes and biscuits to the more healthy fruit kebabs, the children eagerly wait to find out which delicious meal they will be preparing next! Mrs Holland is our culinary expert leading the way in our cookery room.

Cookery
