

KS1 Curriculum Rooms...

In Key Stage 1 we are really lucky to offer our super curriculum rooms to the children in Years 1 and 2. Over a two week period, the children visit each of the rooms for 2 sessions to be taught Art, DT, ICT and Cookery by our highly experienced staff. Our children love visiting each room and working on the special projects. Here's a little snapshot of some of the things they get up to...

Art

Mrs Cowan runs our fab art and DT room. The children love coming here to explore the wonderful world of art and artists. It's great to see the enthusiasm on the children's faces as they paint their fantastic paintings or mould their super sculptures.

Our 'Sheducator', Miss Starke loves working with the children on super Design Technology projects in our very own 'Invention Shed.' A place where we can nurture the designers and inventors of the future! Watch out...we might just have the next Einstein at Cestria!

D.T.

Enter the Techno Den and you enter a world of iPads, digital cameras and a whole host of other technological gadgets that Miss Gowland uses to extend the children's computing skills. I think our favourite activity is using jelly babies to make music using an iPad!

Food, Glorious, Food! Everyone just loves the cookery room. From cakes and biscuits to the more healthy fruit kebabs, the children eagerly wait to find out which delicious meal they will be preparing next! Mrs Holland is our culinary expert leading the way in our cookery room.

Cookery
